Users who are familiar with previous versions of this document will notice a significant difference in the style of the layout and presentation of the data. This difference is necessitated by the fact that the computer software which I use to store and manage the data (and consequently to generate the reports which become this document) changed. For a number of reasons, this data is now stored in Millennia Corporation's (<http://www.legacyfamilytree.com>) Legacy Family Tree (on the PC) and in Northern Hills Software's (<http://www.northernhillsoftware.com>) Pocket Genealogist (on the PDA). I recommend both these programs to users who are in the market for such.
